Khameera Gaozaban sada strengthens the heart and brain, normalises heart palpitation, tension anxiety and apprehensions, and improves eyesight and memory, daily use in routine is highly beneficial for people doing mental work. Helpful in chronic coryza, catarrh and flu

Dosage: 5g with water two times a day

KHAMEERA MARWARID

Active Component: Arq e baid mushk (*Salix Caprea L.*)

Number of ingredient: 5

Khameera Marwarid especially useful in strengthening the heart provides energy. It elevates the mood normalizes palpitation and condition of depression. It also gives protection against side effects of measles, chicken pox, and small pox. A good tonic during the period of convalescence. Helpful in calcium deficiency and general debility. Restores energy in convalescent patients

Dosage: 3 to 5g with water two times a day

KHAMEERA BADAM

Active Component: Magaz Badam (Terminalia catappa)

Number of ingredient: 3

Khameera Badam strengthens brain and produces moisture and freshness, induces sleep. It strengthens eye and improve eye sight. Useful in amnesia (forgetfulness) and general debility. Reduces fall of hair

Dosage: 5 to 10g with water two times a day

KHAMEERA KHASKHASH

Active Component: Tukhm Kashkash (Papaver somniferum L)

Number of ingredient: 4

Khameera Kashkash is useful in cold, cough and catarrh. It removes cough. It is helpful in allergy.

Dosage: 5 to 10g with water two times a day

KHAMEERA BANAFSHA

Active Component: Gul Banafsha (Viola Odorata)

Number of ingredient: 2

Khameera Banafsha quenches excessive thirst. It is effective in fever, coryza, common cold, and cough. It is useful for inflammation of throat

Dosage: 10g with warm water or Arq gaozaban two times a day

KHAMEERA ZAMURD AJMALI

Active Component: Kushtha Zamurd

Number of ingredient: 4

Khameera Zamurd Ajmali strengthens kidneys. It is useful in kidney problems and supra renal gland problems. It is helpful in oliguria due to kidney weakness

Dosage: 5g with water two times a day

KHAMEERA DANAYI

Active Component: Magaz Badam (Terminalia catappa)

Number of ingredient: 2

Khameera Danayi improves memory. It is helpful in amnesia. It sharpens mind and eyesight. It reduces hair fall.

Dosage: 5 to 10g with water two times a day

DAWA-UL-SHIFA AJMALI

Active Component: Asrol (Asarum europaeum)

Number of ingredient: 2

Dawa-ul-shifa is effective in insomnia, insanity, schizophrenia, hysteria. Reduces blood pressure gradually.

Dosage: 1-2 tablets with water two times a day

DAWA-UL-MISK MOTADIL JAWAHAR

Active Component: Sandal surkh (Pterocarpus santalinus)

Number of ingredient: 20

Dawa-ul-misk motadil jawahar strengthens biological system. It increases blood circulation formation of pure and healthy blood. It normalizes palpitation and condition of uneasiness. A good cardiac tonic. It strengthens the heart and other vital organs of the body and normalizes blood pressure. It is useful in general debility, palpitation, anxiety, depression, angina pectoris and convalescence

Dosage: 5g with water two times a day or as directed by the physician

DAWA-UL-MISK MOTADIL SADA

Active Component: Rub Seb (Pyrus Malus)

Number of ingredient: 18

Dawa-ul- misk motadil strengthens the heart and normalizes palpitation and uneasiness. Cardiac tonic. It is effective in general debility, convalesce, palpitation and syncope

Dosage: 5g with water two times a day or as directed by the physician

DAWA AJEEB ZIABETES

Active Component: Tukhm e Jamun (Syzygium cumini)

Number of ingredient: 14

Dawa Ajeeb zibetes is effective for diabetes mellitus

❖ 1-2 tablets with water two times a day Or directed by the physician

DAWA PATHRI AJMALI

Active Component: Sang e surbhi (Silicate of lime)

Number of ingredient: 5

Dawa pathri ajmali is effective for the stones of kidney and bladder. It disintegrates the stones and excreted through urine

Dosage: 1-2 tablets with Sikanjbin bazuri two times a day

DAWA GADUD

Active Component: Sana Makki (Cassia angustifolia)

Number of ingredient: 19

Dawagadud is effective for the enlargement of throat gland

Dosage: 1-2 tablets with water two times a day

DAWA JHAR JADID

Active Component: Behroz Khushk (Pinus Longitfolia Latex)

Number of ingredient: 4

Dawajharjadid is effective for the inflammation of uterus. It cleanse the malhumors of uterus

Dosage: For internal use by the help of tabiba or midwife

DAWA SAMET JADID

Active Component: Mazoo sabz (Quercus infectoria)

Number of ingredient: 5

Dawa Samet jadid is effective for the strength of uterus. 5 days course is necessary after treatment of inflammation of uterus

Dosage: For internal use by the help of tabiba or midwife

DAWA-UL-KARAM KABIR

Active Component: Mur Makki (Commiphora myrrha)

Number of ingredient: 6

Dawa-ul-karam kabir is effective in enlargement of liver and gall bladder. It is useful in inflammation of liver and improves functions. Helpful in dropsy

Dosage: 5g with water two times a day

DIYAQOZA

Active Component: Tukhm Khashkhash (Papaver somniferum L.)

Number of ingredient: 15

Diyaqoza is effective for dry cough. It is useful for dryness of lungs and throat

Dosage: 10-20g with water at bed time

ROGHAN BABUNA

Active Component: Roghan Konjed (Sesamum indicum L.)

Number of ingredient: 2

Roghan babunah relieves rheumatic pain, otalgia and other pains. It has ability to soothe the nerves and promote more restful sleep. It is used for the treatment of dyspepsia, nausea, anorexia, vomiting in pregnancy and flatulent dyspepsia associated with mental stress.

Dosage: Massage gently on affected area before sleep or as directed by physician

ROGHAN BAWASIR KHAS

Active Component: Kafoor (Cinnamomum camphora)

Number of ingredient: 2

Roghan Bawasirkhas is effective in piles ailments. It reduces pain and heals the wound

Dosage: Massage gently on affected area before sleep or as directed by physician

ROGHAN BER BHUTI KHAS

Active Component: Roghan Konjed (Sesamum indicum L.)

Number of ingredient: 2

Roghan berbhuti khas is a muscular tonic for the male genital organ. It helps enhancing the erection, size and girth of the male organ naturally. It strengthens the male sex organ, improves the sexual power, and increases the proper blood circulation in the male sex organ. It provides proper natural vitality, stiffness and full erection

FOR EXTERNAL USE ONLY

Dosage: Gently massage 4-5 drops for 5 minutes on male sex organ or as directed by physician

ROGHAN CHIHAR BERG

Active Component: Roghan Konjed (Sesamum indicum L.)

Number of ingredient: 5

Roghan Chihar berg is useful in muscular pain of back and neck. It is effective in other muscular pains

Dosage: Massage gently warm oil on affected area before sleep or as directed by physician

ROGHAN KASHKASH

Active Component: Khashkhash (Papaver somniferum)

Number of ingredient: 1

Its application on head relieves headache caused by intensive heat, induces sleep. It is effective in insomnia, sleeplessness. Induces more restful sleep

Dosage: Massage gently on head and both sides of forehead before sleep or as directed by physician

ROGHAN TASKEEN DARD

Active Component: Serson (Brassica juncea)

Number of ingredient: 3

Roghan taskeen Dard is effective in all types of pain. Beneficial in joint pain, gout. It is useful in muscular pain of neck, back and chest pain

Dosage: Massage gently on affected two or three times a day or as directed by physician

ROGHAN SURKH

Active Component: Magaz Binola (Gossypium herbaceum.)

Number of ingredient: 16

Roghan surkh is effective in muscular pain, numbness and stiffness in foot and hand. Useful in the pain due to injuries. Beneficial in paralysis and facial paralysis, removes the weakness of nerves. Useful in hair loss or dry scalp, stimulate hair growth

Dosage: Massage gently on affected area before sleep or as directed by physician

ROGHAN SAMAT KUSHA SHARIFI

Active Component: Roghan Konjed (Sesamum indicum L.)

Number of ingredient: 2

Roghan samaatkusha is useful in deafness and tinnitus (ringing of the ears due to exposure to excessive or loud noises)

Dosage: 2-3 lukewarm drops to be instilled in the ear in the morning and evening

ROGHAN SURANJAN

Active Component: Roghan Serson (Brassica nigra)

Number of ingredient: 3

Roghan Suranjan is effective in arthritis, sciatica, gout and joints pain. It relieves traumatic pain

Dosage: Massage gently on affected area before sleep or as directed by physician

ROGHAN QUST

Active Component: Qust Talkh (Costus Arabicus)

Number of ingredient: 12

Roghan qust is effective in paralysis, facial paralysis. It gives strength to nerves

Dosage: Massage gently on affected area or as directed by physician

ROGHAN KAHU

Active Component: Tukhme Kahu (*Lactuca scariola* Linn.)

Number of ingredient: 1

Roghan kahu provides soothing effect on brain and induces sleep. It relieves headache caused due to intensity of heat. It removes dryness and heat of brain

Dosage: To Be Applied On Head at Bed Time or As Directed By the Physician

ROGHAN KUCHLA

Active Component: Kuchla (*Strychnos nux vomica*)

Number of ingredient: 3

Roghan Kuchla is effective in muscular and joint pain. It strengthens muscles

Dosage: Massage gently on affected area before sleep or as directed by physician

ROGHAN KUDU SHIRIN

Active Component: Maghz Kudu (*Lagynaria siceraria*)

Number of ingredient: 1

Roghan kadushirin relieves headache caused due to intensity of heat, has soothing effect on head and induces sleep. It relieves the headache caused by sun stroke or intensity of heat. It removes the dryness of brain, produces coldness and thus induces sleep

Dosage: Massage gently on head before sleep or as directed by physician

ROGHAN GUL

Active Component: Roghan Konjed (*Santalum album. L*)

Number of ingredient: 2

Roghan gul is useful in early stages of delirium associated with fever relieves headache caused due to intense heat. Beneficial in headache due to hyperthermia and effective in high fever. Helpful in stomach and uterus inflammation

Dosage: In early stages of delirium, to be applied after mixing with Arq-e-Gulab and Vinegar, on the head with a cloth or cotton, in headache to be applied on the head and forehead

Caution - absolutely avoid during the first two trimesters of pregnancy

Clears skin colour. Treat intestinal dryness and chronic constipation. Olive oil has been used as a beauty product for ages. Can be used for cooking.

Dosage: Massage all over the body with warm oil as needed. After a half- hour massage shower with soap and water. One or two table spoon of oil mixed in a cup of warm milk. Drink at night

SI-KO

Active Component: Baikh karafs (*Apium graveolens* linn)

Number of ingredient: 16

Si-ko is useful in inflammation of liver, stomach, intestine and uterus and improves their functions. It is helpful in stomach heaviness and indigestion. It reduces fever due to inflammation of stomach

Dosage: 1 tablespoon with water twice daily

SUZI

Active Component: Phitkari (Potassium alum)

Number of ingredient: 2

Suzi is effective in urinary tract infections like irritation in urination and pain in urethra

Dosage: 1 tablet with water two times a day

SAFUF ISTEHAZA KHAS

Active Component: Geru (*Anacardium occidentale* L)

Number of ingredient: 12

Safuf istehaza khas is effective in excessive menstrual bleeding (menorrhagia)

Dosage: 3-5g With Water or whey two times a day or directed by physician

SAFUF BARS AJMALI

Active Component: Tukhme Panwar (*Cassia tora* L)

Number of ingredient: 5

Safuf bars ajmali is useful in ringworm infection. It is effective in leucoderma (White patches on the skin)

Dosage: Soak 5g powder in one cup of water for whole night. After filtering, drink it in the morning. Add some vinegar in residue and apply on patches. Use at least for 3 months.

SAFUF CHUTKI

Active Component: Namak Lahori (Sodium chlorate)

Number of ingredient: 19

Safufchutki is effective for indigestion and stops diarrhea in children. It is useful in dysentery

Dosage:

- Children: 0.5-1g with milk Two Times a Day
- Adults: 5-10g with water before breakfast

SAFUF SUPARIPAK

Active Component: Chhuara (Phoenix Dactylifera)

Number of ingredient: 18

Safuf Supari pak is effective in leucorrhoea, general weakness, and facial paleness, weakness after delivery, vomiting and dyspepsia

Note: During menstruation and from the ninth month of pregnancy to twenty days after delivery

Dosage: 5gm with water or milk before breakfast

SAFUF TABASHIR

Active Component: Tukhm Khurfa Siyah (Apium graveolens L)

Number of ingredient: 13

Safuhtabashir is astringent for gonorrhoea. It decreases irritation in urine. It alleviates heat of the liver. It is useful in paralytic complaints, asthma, phthisis, cough and other debilitating diseases

Dosage: 5g with Luke warm water or whey two times a day

SAFUF QALAI

Active Component: Ellaichi Khurd (Elettaria cardamomum)

Number of ingredient: 8

Safuf qalai is useful in spermatorrhoea (Involuntary discharge of semen), premature ejaculation and dilution of semen. It increases the production of reproduction matter.

Dosage: 3g with Luke warm milk two times a day

SAFUF GOND KATIRAY WALA

Active Component: Singhara (Trapa natans)

Number of ingredient: 22

Safuf Gond Katiray wala is effective in spermatorrhoea (Involuntary discharge of semen), premature ejaculation. It is useful in eliminating irritation in urethra. It reduces hyperesthesia.

Dosage: 3g with milk two times a day

SAFUF MAMIRAN

Active Component: Magaz Khayaren (Cucumis sativa)

Number of ingredient: 10

Safe Mamiran is effective in gonorrhoea. It reduces inflammation and heals wounds.

Dosage: 3g with Luke warm milk Two Times a Day

SAFUF MUDIR KHAS

Active Component: Khar e Khasak (*Tribulus terrestris*) Abhal (*Juniperus communis*)

Number of ingredient: 12

Safe muddier khans is effective in menstrual irregularities or disorders

Dosage: 5g with Luke warm water two times a day

Note: Do not take during periods

SAFUF MOYA

Active Component: Baikh Anjabar (*Polygon bistorta*)

Number of ingredient: 4

Safuf moya is effective for dysentery emanating from weak bowels.

Dosage: 5g with water two times a day

SAFUF MEHZIL

Active Component: Podina (*Mentha Arvensis*)

Number of ingredient: 6

Safuf mehzil reduces obesity. Its regular use slims and shapes the body by gradually reducing the extra fat. It inhibits fatty acid synthesis, reduces the cholesterol levels. It also reduces the craving for food and sweets, which reduces the intake of fats and carbohydrates.

Dosage: 5g with water two times a day

SAFUF NAMAK SULEMANI KHAS

Active Component: Namak (Sodium chloride)

Number of ingredient: 15

SafufNamaksulemanikhas act as carminative, appetizer and stomachic. It helps in in-digestion, flatulence, heaviness

Dosage: 3g with water two times a day

SAFUF NAMAK SHEIKH-UL-RAYEIS

Active Component: Namak Lahori (Sodium Chlorate)

Number of ingredient: 11

Safuf namak sheikh-ul-rayeis act as carminative, appetizer and stomachic. It is effective in indigestion, flatulence, heaviness and stomach weakness. It also helps in digestion

Dosage: 3g.with water two times a day or when needed

SAKANJABIN BAZURI

Active Component: Sirka (Vinegar)

Number of ingredient: 5

Increase urine. Excretes kidney and bladder stone. Reduce the inflammation of bladder. Help in gonorrhoea.

Dosage: Mix two to four tablespoon in water before breakfast.

SHARBAT SADDAR AJMALI

Active Component: Unnab (Zizyphus sativa)

Number of ingredient: 12

Sharbatsaddarajmali is useful in cold, catarrh and cough. It is also useful in asthma. It is effective in irritation of throat and laryngitis. It is useful in initial stages of tuberculosis. It is beneficial in bronchospasm asthma.

Dosage: 1 tsp twice daily with water

SHARBAT FAULAD AJMALI

Active Component: Faulad (Iron)

Number of ingredient: 5

Sharbat faulad ajmali activates the liver by increasing Red Blood Corpuscles. It regulates the system of Liver. Improves Appetite and strengthens body. It is helpful in deficiency of blood in patients of debilitated heart and brain

Dosage: 1 teaspoon after lunch and dinner

SHARBAT AHMAD SHAHI

Active Component: Gaozaban (Borago officinalis.)

Number of ingredient: 11

Sharbat Ahmed Shahi is useful in mania, strengthens heart and brain. It is effective in melancholia. Beneficial in cerebral insufficiency and personality disorders

Dosage: 2 tablespoon after mixing in water twice daily

SHARBAT ARZANI

Active Component: Gul e surkh (Rosa damascena)

Number of ingredient: 9

Sharbatarzani is effective in catarrh and cold and cough. Eliminates nasal secretions. Act as a laxative

Dosage: 4 tablespoon after mixing in Luke warm water two times a day

SHARBAT AIJAZ

Active Component: Burg Bansa (*Adhatoda vasica*)

Number of ingredient: 12

Sharbat Aijaz is effective in initial stages of tuberculosis and pulmonary tuberculosis. It is useful in catarrh and dry cough. Act as antiphlegmatic, removes phlegm

Dosage: 2 tablespoon after mixing in Luke warm water two times a day

SHARBAT AFTIMOON

Active Component: Aftimon (*Cuscuta epithimum*)

Number of ingredient: 2

Sharbat aftimoon is effective medicine in melancholia. It is useful in anxiety, depression and apprehension

Dosage: 2 tablespoon 4tablespoon after mixing in Luke warm water two times a day

SHARBAT ANAR

Active Component: Anar (*Punica granatum*)

Number of ingredient:

Strengthen the stomach and liver. Promotes hungers and digestive aid.

Dosage: 25 ml in one glass of water or as directed by physician.

SHARBAT ANJABAR

Active Component: Beej Anjbar (*Polygonum bistorta*)

Number of ingredient: 5

Shabbat anabas is effective in dysentrical disorders. It acts as anti hemorrhagic, stops bleeding. It is useful in menorrhagia for stopping excessive bleeding

Dosage: 2 tablespoon after mixing in 1 cup Luke warm water two times a day

SHARBAT BADAM

Active Component: Badam (*Prunus amygdalus*)

Number of ingredient:

Strengths the mind. Improves memory. Improves concentration.

Dosage: 25 ml in one glass of water or as directed by physician.

SHARBAT BAZURI MOTADIL

Active Component: Tukhme Khayaren (*Cucumis sativus*)

Number of ingredient: 6

Sharbat bazuri motadil is effective in liver, kidney and gall bladder disorders. Act as diuretic

Dosage: 4 tablespoon after mixing in 1 glass of water before breakfast

SHARBAT BAZORI BARAD

Active Component: Tukhme Khayareen (*Cucumis sativus*)

Number of ingredient: 6

Sharbat bazori barad is used in quenching excess heat from liver, kidney and gall bladder. Act as diuretic.

Dosage: 4 tablespoon after mixing in 1 glass of water before breakfast

SHARBAT BANAFSHA

Active Component: Gul Banafsha (*Viola odorata*)

Number of ingredient: 2

Sharbat Banafsha is useful in cold, catarrh, cough and fever. It is useful in sore throat and irritation in throat

Dosage: 2 tablespoon after mixing in Luke warm water twice daily

SHARBAT TOOT SIYAH

Active Component: Rub Toot Siyah (*Morus Alba*)

Number of ingredient: 2

Sharbat Toot siyah cures swelling and pain in throat. It is used for laryngitis and allied throat ailments. It is useful for pharyngeal ailments. It is beneficial in sore throat and throat pain

Dosage: To be taken in the morning and evening after mixing with lukewarm water

SHARBAT DINAR

Active Component: Beikh kasni (*Cichorium Intybus*)

Number of ingredient: 8

Sharbat dinar is effective in hepatitis, hepatic pain. Act as laxative. It is useful in dropsy and pleurisy.

Dosage: 4 tablespoon after mixing in water before breakfast

SHARBAT ZUFA

Active Component: Gul Zufah (*Hyssopus officinalis*)

Number of ingredient: 2

Sharbatzufa act as expectorant and removes phlegm. It is effective in asthma and cough

Dosage: 2 tablespoon after mixing in 1 cup Luke warm water two times a day

SHARBAT UNAB

Active Component: Unnab (*Zizyphus sativa.*)

Number of ingredient: 2

Sharbatunab act as mild blood purifier. It is useful in hyperthermia and hypersensitivity. It is beneficial in headache, cough and chest ailments. It purifies blood and normalizes blood circulation in body.

Dosage: 4 tablespoon after mixing in water before breakfast

SHARBAT KASNI SHARIFI

Active Component: Rab Kasni Sabz (*Cichorium intybus*)

Number of ingredient: 22

Sharbatkasnisharifi removes inflammation of liver, spleen. It is useful in jaundice, dropsy and other related diseases of liver and stomach. Reduces bilious heat and quenches thirst. Acts as diuretic and reduces heat from kidney and bladder

Dosage: 4 tablespoon after mixing in water before breakfast

SHARBAT NILOFAR

Active Component: Gul Nilofir (*Nymphaea Alba*)

Number of ingredient: 2

Sharbatnilofir act as cardiac tonic and soothes heart. It reduces bile in bilious fever and quenches thirst, also reduces excessive heat in high fever.

Dosage: 4 tablespoon after mixing in water before breakfast

SHARBAT KAUSAR

Active Component: Kewra (*Pandanus odoratissimus L*)

Number of ingredient: 3

Sharbat Kausar is prepared from aqueous distillate fresh fruits, and selected herbs etc.

Dosage: Mix 2 and half tablespoon in a glass of water. Mix 10 tablespoon in a jug or 1 liter of water and enjoy the flavors.

SHARBAT ELLAICHI

Active Component: Ellaichi (Elettaria cardamomum)

Number of ingredient: 3

Sharbat Ellaichi power full aromatic, stomachic, stimulant, employed in nausea vomiting & flatulence. Refresh breath.

Dosage: 2 tablespoon mix in glass of water or as needed.

SHARBAT SANDAL

Active Component: Sandal (Santalum Album)

Number of ingredient: 3

(Medicine syrup) is exhilarant. Effective for palpitation, anxiety, burning micturition, bilious diarrhea

Dosage: 25 ml in one glass of water or as directed by physician.

SIBYANI

Active Component: Aab Limo (Lemon)

Number of ingredient: 3

Sibyani is a good tonic especially for children. It helps in development of teeth. It is useful in indigestion, stomach weakness and diarrhea. It makes child healthy and strong and enhances immunity

Dosage: 1 teaspoon twice daily

SAFAI AKSIR

Active Component: Chaksu (Cassia Absus.)

Number of ingredient: 12

It purifies blood. It treats diseases caused by blood impurities.

Dosage: 3-5g with water two times a day

ZAMAD BAWASIR

Active Component: Tukhm gandana (Achillea millefolium)

Number of ingredient: 8

Zamad bawasir is effective in piles. It dries the open wounds of piles. It reduces pain and irritation

Dosage: Apply on wounds at morning and before sleep

ZAMAD JALINUS

Active Component: Roghan Konjed (Santalum album. L)

Number of ingredient: 5

Zamad Jalinus is effective for the removal of inflamed spots of gall bladder, stomach and liver
It softens the muscles of stomach

Dosage: Apply on the affected area before sleep

ZAMAD GADUD SHARIFI

Active Component: Roghan Arind (Ricinus communis)

Number of ingredient: 11

Zamad gadud sharifi is effective for the enlargement of gland of throat

Dosage: Apply on affected gland before sleep

TILA KHAS No.1

Active Component: Roghan Taskeen Dard

Number of ingredient: 1

Tila khas is curative for disorders as the result of self-abuse and excessive sexual intercourse
It increases blood circulation in the affected organ. Remove sexual weakness. Energises the male sex organ and helps in erection. Muscular tonic for the male genital organs. It prevents premature ejaculation

- For temporary use: Apply tila one hour before coitus to achieve a good hard erection and enhance the capacity of the male organ to control the orgasm

TILA KHARATEEN

Active Component: Roghan Konjed (Santalum album. L)

Number of ingredient: 6

Tilakharateen increases blood circulation in the affected organ. Remove sexual weakness. Energises the male sex organ and helps in erection. Muscular tonic for the male genital organ

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA ZOD ASAR

Active Component: Roghan Qust (kath Oil)

Number of ingredient: 8

Tilazodasar is effective in sexual debility. Increases blood circulation in the affected organ

Dosage: Apply Tila on male sex organ and gently massage for few minute. Hot betel leaf bandage is also done after its applications

TILA AQUR QURHA

Active Component: Roghan Konjed (Santalum album. L)

Number of ingredient: 8

Tila aqur qurah is helpful in debility of male sex organ. Energises the male sex organ and helps in erection

Dosage: Apply Tila on male sex organ and gently massage for few minute. Hot betel leaf bandage is also done after its applications

TILA AJEEB SHARIFI

Active Component: Ghee

Number of ingredient: 6

Tila Ajeeb sharifi increases blood circulation in the affected organ. It is effective in male sex organ problems. Hyper sensitization of male organ, leanness and debility of the male organ

Dosage:

- Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications
- Its use causes pustule formation, itching or inflammation.

TILA MUKHDAR SHARIFI

Active Component: Itir Hina

Number of ingredient: 1

Tila mukhaddar sharifi is effective for spermatorrhoea and premature ejaculation. Beneficial in nocturnal emission

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA MUSAMMAN SHARIFI

Active Component: Jayifil (Myristica fragrans fruit)

Number of ingredient: 10

Tila Musamman sharifi gives strength to male sex organ.

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA MASIHI SHARIFI

Active Component: Vaseline Zard (Petroleum jelly)

Number of ingredient: 11

Tila masihi sharifi is effective in sexual debility

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA MUQQAWI SHARIFI

Active Component: Ghee

Number of ingredient: 13

Tila muqqawi sharifi is effective for sexual debility. It gives strength to male sex organ, increases blood circulation to affected organ. Act as aphrodisiac

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA MUATTIR

Active Component: Vaseline Zard (Petroleum jelly)

Number of ingredient: 8

Tilamuattir is a combination of perfumed herbal extracts. It increases the joy able moments. Both sides enjoy.

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

TILA MUMSIK KHAS

Active Component: Roghan Konjed (Santalum album. L)

Number of ingredient: 5

TilaMumsikkhas cures seminal dilution and impotency due to overindulgence in sexual act and masturbation prior to marriage. It is effective in hypersensitivity, premature ejaculation, lack of seminal viscosity

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

ITAR AISH

Active Component: Vaseline Zard (Petroleum jelly)

Number of ingredient: 4

Itar aish is a combination of perfumed herbs. It increases pleasure. Both sides enjoy moments.

Dosage: When required apply on male sex organ

TILA HEERAY WALA

Active Component: Sammulfar (Arsenic)

Number of ingredient: 3

TilaHeeraywala is effective for all the problems related to male sex organ. It removes malhumors from the vessels and increases blood circulation

Dosage: Apply Tila on male sex organ and gently massage for few minutes. Hot betel leaf bandage is also done after its applications

AJEEB Khurd

Active Component: Sat Pudina (Mentha)

Number of ingredient: 3

Ajeeb is useful for abdomen pain, stomach disorders, cholera, vomiting, and dysenteric effects, body-burning, cuts pain, headache and insect cuts. It is also useful for pain and disease of teeth

Dosage:

- Take 2-3drops in water and drink when required

Dosage: 1 cup before breakfast or directed by physician

ARQ MASIHI

Active Component: Tukhm-e-kasni (Cichorium intybus)

Number of ingredient: 26

Arq masihi is effective in treatment of tuberculosis. It is useful in weakness of lung due to any lung disease. Useful in chronic cough and heal wounds of lungs.

Dosage: 1 cup before breakfast or directed by physician

ARQ AJWAIN

Active Component: Gaozaban (Borago officinalis)

Number of ingredient: 2

Arq Ajwain effective in colic dyspepsia, flatulence. It is useful in indigestion. Effective in dropsy. Restores normal functioning of liver. Its use increases appetite.

Dosage: 1 cup before breakfast or as directed by physician

ARQ ILLAICHI

Active Component: Ellaichi Khurd (*Elettaria cardamomum*)

Number of ingredient: 1

Arqillaichi provides energy to heart and stimulates it, restores stomach to proper functioning in case of gastric problem and diarrhea, stops vomiting and prevent indigestion.

Dosage: 1 cup before breakfast or as directed by physician

ARQ BADIYAN

Active Component: Badiyan (*Foeniculum vulgare*)

Number of ingredient: 1

ArqBadiyan helps in in-digestion and relieves flatus, heaviness. Strengthens stomach. Stops vomiting.

Dosage: 1 cup before breakfast or directed by physician

ARQ BRINJASAF

Active Component: Baranjasaf (*Achillea millefolium L.*)

Number of ingredient: 1

ArqBrinjasaf has an anti-inflammatory action. Dissolve internal inflammation of the organs

Dosage: 1 cup before breakfast or as directed by physician

ARQ PODINA

Active Component: Pudina (*Mentha piperita*)

Number of ingredient: 1

ArqPodina makes digestion better. Act as carminative. Give strength to stomach (stomachic). Stops nausea and vomiting

Dosage: 1 cup before breakfast or as directed by physician

ARQ CHOBCHINI

Active Component: Mundi (*Sphaeranthus indicus*)

Number of ingredient: 4

ArqChobchini is useful in purification of blood. Effective in purging malhumors, blood impurities from the body and improves complexion

Dosage: 1 cup before breakfast or as directed by physician

ARQ CHOBCHINI BANUSHKHAKALAN

Active Component: Chob chini (*Smilax chinensis*)

Number of ingredient: 12

ArqChobchini (banuskhkalan) is useful in purification of blood. It is effective in purging malhumors, blood impurities from the body. Prevents itching pruritis and other skin eruptions

Dosage: 1 cup before breakfast or as directed by physician

ARQ CHIHAR

Active Component: Badiyan (*Foeniculum vulgare*)

Number of ingredient: 4

ArqChihar strengthens digestive system. It increases appetite. Act as carminative.

Dosage:

- Adult: 40ml two times a day
- Children: One tablespoon three times a day or directed by physician

ARQ SHAHTRA

Active Component: Shahtra (*Fumaria parviflora*)

Number of ingredient: 1

ArqShahtra is widely used for purification of blood. Remove pimples and freckles from the skin. Effective in diseases due to blood disorders.

Dosage: 1 cup before breakfast or directed by physician

ARQ USHBA

Active Component: Mundi (*Sphaeranthus indicus*)

Number of ingredient: 2

Arq Ushba is effective in saudawi diseases gonorrhea, syphilis, and treats rheumatoid arthritis.

Dosage: 1 cup before breakfast or as directed by physician

ARQ KASNI

Active Component: Tukhm e Kasni (*Cichorium intybus*)

Number of ingredient: 1

Arq Kasni reduces inflammation of liver, stomach and spleen. Useful in jaundice, dropsy and other related diseases of liver and stomach. Reduces bilious heat and quenches thirst. Acts as diuretic

Dosage: 1 cup before breakfast or as directed by physician

ARQ GAOZABAN

Active Component: Gaozaban (Borago officinalis)

Number of ingredient: 1

Arq Gulab provides strength to the heart, normalizes heart beat and palpitation. Reduce intensity of fever. Quenches excessive thirst

Dosage: 1 cup before breakfast or as directed by physician

ARQ GULAB

Active Component: Gul e surkh (Rosa damascena)

Number of ingredient: 1

Arq Gulab provides energy and exhilaration to heart, normalizes heart beat and palpitation, quenches thirst and provides coolness to the body helps in regaining consciousness in unconscious patients.

Dosage: Half cup before breakfast

ARQ GULAB SPRAY

Active Component: Gul e surkh (Rosa damascena)

Number of ingredient: 1

Refreshing soft and smooth skin. A good moistures and makeup remover. Removes dark spots on face and improves complexion.

Dosage: Spray on palm and apply on face or directly spray on face.

AJMAL SLIMMING WATER

Active Component: Podina Khushk (Mentha Arvensis)

Number of ingredient: 8

Arq mehzil is effective product for weight management. Regular use helps in burning fat which in turn reduces weight gradually.

Dosage: Half Cup two times a day. At least use 3 bottles.

ARQ MAKO

Active Component: Mako Dana (Solanum Nigrum)

Number of ingredient: 1

Ark Mako is effective in relieving inflammation of stomach, liver, intestine, spleen and uterus.

Dosage: 1 cup before breakfast or as directed by physician

ARQ MUNDI

Active Component: Mundi (*Sphaeranthus indicus*)

Number of ingredient: 1

Arq mundi helps purify blood and improves complexion. Effective in skin ulcerations, ringworm, scabies, allergy and other skin diseases. Useful in improving vision

Dosage: 1 cup before breakfast or as directed by physician

ARQ MUNDI SHARIFI

Active Component: Mundi (*Sphaeranthus indicus*)

Number of ingredient: 1

Arq Mundi Sharifi is useful in purification of blood. Effective in chronic skin allergies, pimples, freckles. Removes black spots of face and improves complexion

Dosage: 1 cup before breakfast or as directed by physician

QURS ABIAZ

Active Component: Nishasta (*Triticum aestivum* L)

Number of ingredient: 9

Qurs Abiaz is curative for spermatorrhoea. It enhances ejaculation

Dosage: One to two tablets with Luke warm milk in the morning

QURA AFSANTIN

Active Component: Afsantin (*Artemisia absinthium*)

Number of ingredient: 5

Qurs Afsantin causes blood formation. It is beneficial in liver weakness, inflammation of liver and enlargement of liver

Dosage: One tablet with water two times a day or as directed by the physician

QURS AMLA LOLAVI

Active Component: Amla (*Emblica officinalis*)

Number of ingredient: 12

Qursamlalolavi strengthens intestines. Stops diarrhea if due to weakness of intestines

Dosage: One tablet with water two times a day

QURS BUKHAR AJMALI

Active Component: Shahtra (*Fumaria parviflora*)

Number of ingredient: 6

QursBukhar is effective for malaria fever

Dosage: Two Tablets with Water Two Times a Day

QURS BISBASA

Active Component: Bisbasa (*Myristica Fragrans* Houtt)

Number of ingredient: 16

Qurs Bisbasa gives strength to stomach. It increases appetite

Dosage: 1-2 tablets after meals with water

QURS BAWASIR

Active Component: Post Bakayan (*Melia azedarach*)

Number of ingredient: 8

Qurs Bawasir is effective in chronic piles. It removes burning and pain of piles

Dosage: 1-2 tablets with water two times a day after food

QURS BAWASIR KHAS

Active Component: Geru (*Anacardium occidentale* L)

Number of ingredient: 11

Qurs Bawasir khas is effective in bleeding piles and hemorrhoids. It reduces irritation and pain in wounds

Dosage: One to two tablets with water two times a day

QURS PODINA

Active Component: Podina Khushk (*Mentha Arvensis*)

Number of ingredient: 10

Qurs Podina strengthens stomach. It helps in digestion and increases appetite. It removes itching, pruritus if due to indigestion. It prevents flatulence.

Dosage: 1-2 Tablets with water two times a day after food

QURS JARIYAN AJMALI

Active Component: Shatavari (*Asparagus racemosus*)

Number of ingredient: 17

Qurs Jariyan Ajamli checks nocturnal emissions and spermatorrhoea which are caused by excessive sexual excitement and wrong habits and actions in youths. Controls all kinds of seminal discharge of pre or post micturition. Checks the seminal dilution. Improves the consistency of seminal fluid

Dosage: Two Tablets with water two times a day

Active Component: Berge Kikar (*Vachellia nilotica*)

Number of ingredient: 6

Qurs Jamil is effective for seasonal and malarial fever.

Dosage: One To Two Tablets with Water Two Times a Day

QURS HISAAT AJMALI

Active Component: Namak Muli (*Raphanus sativus* L) Jawakhar (Potassium Carbonate)

Number of ingredient: 11

Qurs Haisaat Ajmali is effective for kidney and bladder stones. It disintegrates and excretes stones

Dosage: 2 Tablets with one tablespoon of Sikanjbinbazuri before breakfast

QURS DAMA

Active Component: Berge Bansa (*Adhatoda vasica*)

Number of ingredient: 8

Qurs Dama is effective in asthma. It is useful in bronchospasm. It removes phlegm from lungs and wind pipe

Dosage: one to two tablets with Sharbat saddar one table spoon (10ml) at the bed or as directed by the physician

QURS ZARIN

Active Component: Baikh Karafs (*Apium graveolens* linn)

Number of ingredient: 11

Qurs Zarin is effective in weakness of bladder and kidney.

Dosage: 1-2 Tablets With water Before Breakfast

QURS SARTAN KAFORI

Active Component: Sartan sokhta (Scilla serrata ash)

Number of ingredient: 18

QursSartankafori is effective for tuberculosis and other lung ailments. Heal wounds of lungs and helpful in cough. Act as styptic, stops bleeding

Dosage: 1-2 Tablets With water two Times A day

QURS SUZAK

Active Component: Post Falsa (Grewia Asiatica)

Number of ingredient: 9

QursSuzak is effective medicine for the treatment of gonorrhea. It removes burning sensation in urine. Heals wounds of urethra

Dosage:1-2 tablets with curd water before breakfast

QURS SADAR AJMALI

Active Component: Barg Bansa (Adhatoda vasica)

Number of ingredient: 19

Qurs saddar ajmali is effective in asthma, tuberculosis and other lung problems. Strengthen lungs. It removes inflammation of wind pipe (larynx)

Dosage: 1-2 Tablets with a tablespoon of Sharbatsaddarajmali after mixing in water twice daily

QURS AJEEB EHTALAM

Active Component: Filfil siyah (Piper nigrum)

Number of ingredient: 5

Qurs Ajeeb ehtalam is effective in nocturnal emission.

Dosage: 1 Tablet with water after meal two times a day

QURS KAHRUBA

Active Component: Kehruba (Vateria indica gum)

Number of ingredient: 12

Qurs Kahruba is a styptic for oral bleeding. Stops hematemesis. It is useful in epistaxis and bleeding from the lungs. Effective in stopping internal and external bleeding. Stop excessive menstrual bleeding (menorrhagia) and bleeding piles

Dosage: 2 tablets with a cup of curd water before breakfast

QURS MUSSAFI MURAKAB

Active Component: Sandal surkh (Pterocarpus santalinus)

Number of ingredient: 10

Qurs Musaffi Murakab is effective blood purifier. It prevents acne, pimples, boils, itch, pruritis and other skin eruptions. It purifies blood, improves complexion and keeps individual light and active. Eliminates the accumulated morbid matter from intestines, kidneys, stomach and liver and thus restores their normal functions

Dosage: 1-2 Tablets with Water before Breakfast

QURS MUFASIL KHAS

Active Component: Suranjan Shareen (Colchicum luteum.)

Number of ingredient: 7

Qurs Mufasil Khas is effective for joint pain and pain of thumbs of foot. It eliminates bad humor from the body and relieves pain

Dosage: 1-2 Tablets with Water at Sleeping Time

QURS MULAYYAN (Sugar coated)

Active Component: Burg Sonamukhi (Cassia augustifolia.)

QURS MUMSIK JADID

Active Component: Tukhm Imlı (Tamarindus)

Number of ingredient: 10

Qurs Mumsik jadid is effective for depressed libido and lack of vitality. It reduces hypersensitivity of sexual glands. Used to treat premature ejaculation (Surat anzal), spermatorrhoea (jiryaa) and night fall.

Dosage: 1-2 Tablets with water at bed time

QURS NISWAN

Active Component: Tukhm Khurfa siyah (Apium graveolens L)

Number of ingredient: 14

Qurs Niswan is effective in leucorrhoea and relieves backache. Strengthens uterus. It is helpful in abortion.

Dosage: 1-2 Tablets with warm milk early morning

QURS NUQRA MURRAKAB

Active Component: Behman safed (Centaurea Behen)

Number of ingredient: 5

QursNuqramurakkab is an excellent brain tonic. It provides energy to the mind, nerves. Provides relief from diseases like headache, cerebral debility, dizziness, amnesia, mania or melancholia

Strengthens memory power.Improves eyesight. It is useful for those engaged in mental work

Dosage: One tablet with warm milk before breakfast or with half teaspoon KhamiraGaozabanAmbriJawahar

QURS HEEL

Active Component: Ellaichi khurd (Elettaria cardamomum)

Number of ingredient: 7

Qurs Heel is effective for stomach pain and diarrhea. It strengthens stomach. Useful in dysentery

Dosage: 1-2 Tablets with water after meal twice daily

QURS FAULAD

Active Component: Kushta Faulad

Number of ingredient: 5

QursFaulad strengthens stomach and liver. It is a good remedy for anemia. It is useful in iron deficiency, increases the blood formation, and removes the loss of appetite and paleness of the face. Useful in general debility

Dosage: 1 tablet with 5g JawarishJalinus before breakfast

QURS QARAN ILAIYAL

Active Component: Kushta Qaran Ilaiyal

Number of ingredient: 4

QursQaranilaiyal is effective in ribs pain. It is useful in respiratory tract infections, cough after pneumonia.

Dosage: Take one tablet with 10g Laooq khiyar shambar two times a day

QURS MARJAN

Active Component: Kushta Marjan

Number of ingredient: 5

QursMarjan strengthens brain. It protects the body from common flu and cold. Strengthens memory power

Dosage: Take 1 tablet with 10g butter before breakfast

QURS BAIZA MURGH

Active Component: Kushta Baiza Murgh

Number of ingredient: 4

QursBaizamurgh is useful in diabetes, polyurea (excessive urination) and bed wetting.

Dosage: Take one tablet with 5g Jawarish Zironi two times a day

QURS HAJAR UL YAHUD

Active Component: Kushta Hajar ul Yahud

Number of ingredient: 5

QursHajarulYahud removes the renal and bladder calculi through micturition duly broken into small particles. Evacuates the superfluous of the stomach

Dosage: Take one tablet with Sikanjbinbazuri before breakfast

QURS SADAF

Active Component: Kushta Sadaf

Number of ingredient: 4

Qurs Sadaf is beneficial for spermatorrhoea in male and leucorrhoea in female. Useful in calcium deficiency

Dosage: Take one tablet with 10g butter before breakfast

QURS IBRAK KALAN

Active Component: Kushta Ibrak Kalan

Number of ingredient: 7

QursIbrakkalan is effective in asthma, phlegmatic cough. It is useful in nervine disorders

Dosage: One tablet with one tablespoon warm honey before sleep

QURS NUQRA

Active Component: Kushta Nuqra

Number of ingredient: 6

QursNuqra strengthens principal organs i.e. heart, brain, liver, nerves and stomach.

Dosage: 1 tablet in 10g cream (Balai) before breakfast

QURS QALAI

Active Component: Kushta Qalai

Number of ingredient: 4

QursQalai is useful in spermatorrhoea, nocturnal emission, premature ejaculation and dilution of semen. Increases the production of reproduction matter

Dosage: Take one tablet with Majunmughalizjawahar before breakfast, then drink half cup of milk

Q-LYI

Active Component: Ellaichi (Elettaria cardamomum)

Number of ingredient: 9

Q-lyi is useful for mouth blisters and wounds. It also treats redness of tongue

Dosage: Sprinkle 1 pinch on mouth two times a day. Gargle after 10-15mins with warm water

QAROTI ARAD KARISNA

Active Component: Roghan Konjed (Sesamum indicum L)

Number of ingredient: 7

Qaroti Arad Karisna is helpful in pneumonia and ribs pain. Absorb and dry phlegm from the chest. Beneficial both in children and adult

Dosage: Apply and rub on affected area when required

QURS JAWAHAR MOHRA

Active Component:

Number of ingredient: 4

Strengthens principal organs like liver, brain and heart. Increases the 'medicatrix naturae "(Hararat gharizi), tones up the heart. Miraculous effect may be observed in syncope.

Dosage: One tablet with (1 tola bali) before breakfast or as directed by the physician

QURS ZAMURD

Active Component:

Number of ingredient: 6

It strengthens the kidney, removes weakness, it cures diabetes and polyurea also strength urinary bladder.

Dosage: One Tablet with Jawarish Zironi Ambari before breakfast with a cup or milk or as directed by physician.

QURS SAPISTAN

Active Component:

Number of ingredient:

Useful laooq in cough, cold and catarrh. Clears mucus from the chest. Remove the intensity of cold and flu immediately.

Dosage: One tablet with water.

QALAB-E-RAWAN

Active Component: Ginger (*Zingiber officinale*)

Number of ingredient: 5

Reduce cholesterol. Protect from heart attack by opening the valves & narrow arteries. Reduce weight. Help Digestion.

Dosage: Use two tablespoon with a glass of water twice a day.

KABID AJMALI

Active Component: Balchar (*Valeriana officinale*)

Number of ingredient: 4

Cures Hepatitis A, B and C. Use for at least three months.

Dosage: Use two tablet with empty stomach in the morning and evening with water or as directed by the Physician.

LABUB KABIR

Active Component: Mahi Rubiyan (*Palaemon curtinus*)

Number of ingredient: 45

Labub kabir is a best general tonic. It strengthens liver, heart, brain, stomach, nerves and kidneys. It enhances memory. Retain black colour of hair for long time. Increase rigidity, sexual vigour and density & quality of semen. Redresses general weakness and gives sexual potency

Dosage: 3-5g with 1 cup Luke warm milk before breakfast

LABUB BARAD

Active Component: Shaqaqul Misri (Trachydium Lehmanni)

Number of ingredient: 15

Labub barad is useful in high blood pressure. It strengthens nerves. It is effective in sexual debility, general weakness and oligospermia. Increases thickness of semen

Dosage: 5g with 1 cup Luke warm milk before breakfast

LAOOQ BADAM

Active Component: Rab ul sus (Glycyrrhiza glabra)

Number of ingredient: 5

Laoq Badam is a brain tonic. It improves memory Beneficial in dry cough and tuberculosis. Useful for hoarseness of throat

Dosage: 10g two times a day

LAOOQ KHIYAR SHAMBAR

Active Component: Rub Amaltas (Cassia fistula)

Number of ingredient: 5

Laoq khiyar shambar is useful in cold and catarrh, cures cough due to cold and removes constipation. Effective in catarrh, cold, bronchitis and cough. Removes phlegm from chest. Act as laxative

Dosage: 10g along with water two times a day

LAOOQ SAPISTAN

Active Component: Asl-us-soos (Glycyrrhiza glabra root)

Number of ingredient: 9

Laoq sapistan is useful in cold, catarrh and coughs, reduces excessive cough and removes phlegm. Act as expectorant. Effective in catarrh and cough. Anodyne in severe cough

Dosage: 10g with water in morning and before sleep

LAOOQ KATAN

Active Component: Shakkar Surkh (Sacharum Officinarum)

Number of ingredient: 3

Laoq Katan is useful in phlegmatic cough and asthma. It removes phlegm from chest and lungs.

Dosage:

- 3g warm laooq thrice a day
- 1-2g to children

LAOOQ NAZLI

Active Component: Tukhm Khashkhash (Papaver somniferum L.)

Number of ingredient: 8

LaoqNazli cures cold, catarrh and bronchitis of catarrh origin. It removes phlegm from chest. It eliminates phlegmatic cough

Dosage: 10 gm with water twice daily

MUSAFFI AJMALI

Active Component: Chirata Talkh (Gentiana Chirayita)

Number of ingredient: 17

Musaffi Azam purifies blood. It is beneficial in boils, eczema, ring worm, pimples, pustules, scabies, allergy and itching (Dry & wet). Useful in gonorrhoea and syphilis

Dosage: To be taken with water twice daily

MEE-LO

Active Component: Mako Khushk (Solanum Nigrum L.)

Number of ingredient: 7

Mee-lo is an effective medicine for uterine problems. It stops bad odor secretions from uterus. It is also useful in inflammation of uterus

Dosage: 1 tablespoon twice daily

MUFARAHEEN AJMALI

Active Component: Kashneez Khushk Biryani (Coriandrum sativum)

Number of ingredient: 5

Muffaraheen Ajmali is used to remove heat from stomach, liver, hand and feet. It is useful in dysentery. It also reduces burn in chest

Dosage: 1-2 tablets with water twice daily

MARHAM AJEEB AJMALI

Active Component: Vaseline Safed (Petroleum Jelly)

Number of ingredient: 6

Marham Ajeeb Ajmali is useful for dry and wet itching. It is also useful for prickly heat, boils, pustules and abscesses

Dosage: Apply on affected area then after some time wash with warm water

MARHAM KAFOOR

Active Component: Zinc Oksida (Zinc Oxide)

Number of ingredient: 3

Marham Kafoor is used for every type of wound. It removes burn and itching from the wound

Dosage: Apply on affected area when required

MAJUN TILA AJMALI

Active Component: Rub-e-Saib

Number of ingredient: 11

Majun Tila ajmali is a combination of musk, saffron amber, and pearls. It strengthens heart, liver, brain and stomach and nerves. It is effective in sexual debility and libido. Useful for low blood pressure patient, increases blood pressure

Dosage: 2-5g with a cup of warm milk before breakfast or as directed by physician

Note: High blood pressure patient use it after advice of tabib

MAJUN NUQRA KHAS

Active Component: Ruh Gulab (Rosa Damacenia)

Number of ingredient: 9

Majun Nuqra khas strengthen heart, brain and liver. It is effective in palpitation and psychoneurosis. Useful for especially high blood pressure patient. Beneficial in sexual debility

Dosage: 5g with a cup of warm milk before breakfast or as directed by physician

Note: Low blood pressure patient do not use it.

MAJUN MURAWAH UL ARWAH

Active Component: Rub Amrood (Guava)

Number of ingredient: 85

Majun Murawah ul arwah is protectant of natural heat of body (Hararat e Azizi). It increases mating period with more virulent also strengthens nerves and increases memory. Helpful in sexual debility and give strength to nerves.

Dosage: 1-2g with 1 cup of milk before sleep

MAJUN HAMAL AMBARI

Active Component: Magaz Tarbuj (Citrullus lanatus)

Number of ingredient: 13

Majun hamil ambari is effective in diseases due to the weakness of uterus. It is helpful in habitual abortion, atony of uterus. It strengthens the uterus. Recommended for women with a history of miscarriages or for women whose offspring's die at birth or are born weak.
